EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Please amend the first paragraph of the specification on page 1 as below in order to update the continuing data mentioned in the first paragraph.

"This invention relates to methods and apparatus of trocar devices and more specifically, arrangements to increase the efficiency of a pneumoseal (no seal) cannula when used in conjunction with a multitude of other various different ID sized cannulae. This application is a continuation-in-part application of our co-pending U.S. Patent Application serial no. 10/739,872, filed 18 December 2003, now U.S. Pat. No. 7,285,112, which is a continuation-in-part application of U.S. Patent Application serial no. 10/441,149 filed 17th of May 2003, now U.S. Pat. No. 7,182,752, which is based upon and incorporates herein provisional patent application serial number 60/461,149 filed 8 of April 2003, each of which are incorporated herein by reference in their entirety."

The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a method

for maintaining a pneumoperitoneum by using a pressurized gas and directing it such that it directly contacts and seals an instrument in the trocar so as to both maintain the pneumoperitoneum and to provide a gaseous seal preventing air/gas loss, in combination with the other elements and steps of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura C. Schell whose telephone number is (571) 272-7881. The examiner can normally be reached on Monday-Friday 9am-5:30pm.
